relief to find a safe, smooth walk and  
it makes the pedestrian feel toward the  
author of such a work as if he were a  
benefactor.

the passenger conductor died in a few  
minutes after being taken from the wreck.  
All others escaped with slight bruises.  
Both engines and several cars were com-

AN OPEN LETTER

TO THOSE WHO ARE THINKING OF BUY-  
ING BINDERS, WE HAVE A FEW  
WORDS TO OFFER.

This is the time when the festive  
and glib-tongued machine agent gets  
out and scurries over the land, taking  
orders; and the intending purchaser,  
it not well posted as to the respective  
merits of the various makes of ma-  
chines are very liable to be taken in.

We all know that "the early bird  
catches the worm," but it is also true  
that the early worm gets caught.

Then, when an agent comes to you  
asking you to buy a binder, if you  
have seen and thoroughly examined  
the Buckeye Down, go ahead on your  
judgment and buy or contract to buy;  
but if you have never seen the Down  
binder, if you have never talked to  
men who have used it, if all you know  
of it is what you heard the agents for  
other machines say of it, all we have  
to remark is "don't! don't! don't!"

As you are going to buy a binder  
this year you will kindly allow us to  
ask you what is the character of the  
machine you want? We take for grant-  
ed that you want the best and most  
perfect machine on the market. But  
what in your opinion would constitute  
the "best" machine?
